All-rounded undergraduate student with a passion for Product Management, SDLC, and Product Design with an emphasis on User Experience. Strong proven track record of innovating simple yet powerful and useful products/processes to improve user experience and workflow.

---

## WORK EXPERIENCE

**Data Automation and Dashboard Intern, Workforce Singapore** **Apr 2025 - Present**

- Attached to the Business and Service Excellence team to carry out data automation of different pipelines using Open Government Products such as Plumber.
- Leveraged data visualisation software such as Tableau for exploratory data analysis to improve internal KPI hitrates and client satisfaction.

**Product Management Intern, Fraxtor** **Sep 2024 - Oct 2024**

- Collaborated with Product Managers to facilitate User Acceptance Testing (UAT), proactively addressing and resolving backend and frontend issues in a timely manner.
- Contributed to the instruction of the new platform to sister companies, supporting informed product management decisions.

**Junior Account Manager, Grab SG** **Feb 2023 - July 2023**

- Manage smaller-sized accounts that have onboarded with Grab. Provide timely business reviews as and when required, while also processing pulled data and analysing data sets to provide relevant and tailored solutions.
  - Assisted account managers in Grab, through pulling data and providing auxiliary information when requested.
-
